

## **Detachable Power Cordsets Approved to International Safety Agency Requirements**

The two to three Conductor IEC International Detachable Power Cordsets are approved to international safety agency requirements. Designs are available in various lengths, cable types, conductor gauge, termination, and jacket color. Cordsets are ideal for home use medical equipment. N. American, European, Australian, British, and other international cordsets are available from stock. Very low cost makes these power supplies perfect for OEM requirements. International power supplies are also available.
