

Tubing Fittings Site Offers More Convenient Shopping

For customers who already know what fitting, size, and material they need and just want to get to it fast, Value Plastics has launched a new site where customers can get to the fitting they need with 3 simple clicks. The full line of over 3,400 hundred tubing fittings has been reorganized and streamlined in this format. New account management features include a complete order and invoice histories, price checking, hierarchical account management, shipping options, volume based pricing and advanced payment option. *Information:* www.vpquickfit.com [1].
