

Battery Compartment Enclosures Are Versatile

OKW's extensive "Shell-Type" range of plastic enclosures offers an unrivalled selection of sizes, styles, and battery compartments.

These modern and robust enclosures have been designed to house many different types of small electronic devices including medical and wellness devices.

The "Shell-Type" enclosures are molded in off-white ABS (UL 94 HB). Three different types are offered: Type V with a single front panel aperture, Type O with two front panel apertures, and Type G which is closed with no front panel apertures.

With four standard plan sizes and six standard heights, a huge range of models is offered with external dimensions ranging from 3.346 x 1.771 x 0.866 in. to 7.480 x 1.496 x 3.582 in.
