

Connectors in Nylon and Polypropylene

Qosina has teamed up with Colder Products Company to now offer their FitQuik Connectors. Available in both white and black nylon and natural polypropylene, the more than 350 fittings are available in standard configurations, including barbed ends for tubing 1/16 to 3/8 in. ID, threads (Standard Luer, NPT, 1/4-28 UNF, and 10-32), caps, and plugs. FitQuik Connectors ensure a secure fit in even the most demanding applications and offer a high quality alternative to standard fittings and luers. These FitQuik connectors are offered to Qosina customers at competitive market prices. Complimentary samples are available making Qosina a convenient comprehensive resource for stock disposable components.
