

## Brazilian 20 Amp Rewireable Plug and Connector

Interpower Corp. is proud to announce that it has expanded its plug, socket, and connector product line to include Brazilian rewireable plugs and connectors.

The company now offers a 20 A/250 VAC rewireable plug 88040300 and connector 88040310 for use in Brazil. These products are approved by INMETRO, and are tested by TUV. The mating 20 A plug and connector offer a special locking feature for safety.

Interpower Corp. offers no minimum order requirements. Same day shipments are available for stock item orders received by 6 PM CST.
