

# Humphrey Products Releases New Valve Catalog

Humphrey Products is proud to announce the release of its newest Valve Catalog, HKV-7, for distribution. The new catalog provides basic decision-making information about the company's broad range of valve products. Within each of the eight sections, there are pages devoted to valve fundamentals, principles and background information, along with a comprehensive index to quickly navigate to the best solution. The ultimate goal of the catalog is to provide an overview of the company's products, guiding the customer to [www.humphrey-products.com](http://www.humphrey-products.com) [1] for more information.

Once at Humphrey's website, the customer can access the Online Product Guide, which provides more detailed specifications, CAD drawings, how to order information, and the ability to request a quote for the product. Additionally, the new catalog can be viewed as an interactive PDF at [www.humphrey-products.com](http://www.humphrey-products.com) [1], or the customer can be download it to view at his or her convenience.

To obtain a catalog, visit [www.humphrey-products.com/?q=content/find-distributor](http://www.humphrey-products.com/?q=content/find-distributor) [2].
