

Compact, Multi-Application Pressure Switch

A tough operating environment is no match for Ashcroft's new A Series pressure switch. All 316 stainless steel construction, a weatherproof IP67 enclosure and an operating temp from -40°C to 100°C (-40°F to 212°F) make this compact switch the ideal choice for a wide variety of industrial and OEM installations. Visit the Ashcroft website to learn more about the specifications and agency approvals.
