

Pad Printer Guarantees Excellent Printing Uniformity

Introducing the EAZY90 pad printer - one of three in the EAZY INKPRINT Series offered by Pad Print Machinery of Vermont. This affordable printer features high productivity, unbeatable reliability, easy setup and operation. The pneumatic operation guarantees excellent printing uniformity and the 90mm diameter sealed inking system enables color changes to be made quickly. The simple to use control panel allows the operator to set speed, pickup and print strokes, continuous and/or single cycle - plus more.

The EAZY90 is a very economical pad printing solution with no special maintenance required. This table top printer is excellent for textile printing and general print production.
