

Heyco Rubber Pocket Bumpers Ideal for use as Mounting Feet to Prevent Equipment from Moving

Heyco Products, Inc., a leading ISO 9001:2008 US-based designer and manufacturer of wire protection products and power components, has announced availability of their new Rubber Pocket Bumpers.

Designed for through hole installation, the Rubber Pocket Bumpers offer a 60-70 durometer range, are available in 29 sizes from .500" (12,7 mm) to 2.500" (63,5 mm) to accommodate various mounting holes and panel thicknesses, and provide vibration dampening.

The Pocket Bumpers are constructed of Styrene Butadiene (SBR) and have an operating temperature range of -40°F (-40°C) to 221°F (105°C).
