

Motion Industries “YES” Printed Catalogs can be Ordered Online

Motion Industries, a leading distributor of industrial maintenance, repair, and operation (MRO) replacement parts, has announced that their “YES” printed product catalog can now be ordered online at the company’s website.

“Adding the ability to request our print catalog through our website enables us to give our new and existing customers a higher level of service,” said Randy Breaux, Motion Industries Senior Vice President of Marketing. “The catalog was created with our customers in mind and includes many of the most popular products purchased every day. Being able to order the catalog from the website makes it easier for our customers to have access to the information needed to purchase the products they are looking for.”

Over 44,000 products covering 20 categories are available in the catalog, searchable by product or manufacturer. A total of 4.8 million items are accessible through Motion Industries’ branch network.

With annual sales exceeding \$4 billion, Motion Industries is a leading industrial parts distributor of bearings, mechanical power transmission, electrical and industrial automation, hydraulic and industrial hose, hydraulic and pneumatic components, industrial products, safety products, and material handling. Motion Industries has over 500 operations including ten distribution centers throughout North America and serves more than 150,000 customers from the food and beverage, pulp and
