

CMM Products Brochure

A new 10-page, 4-color, brochure highlighting the COORD3 line of CMM products is now available from COORD3 Metrology. The brochure can be found on the COORD3.com web site for downloading or a request can be made to receive it by mail.

The brochure describes and lists specifications for all of the COORD3 CMM models; including the complete range of bridge-type machines, horizontal arm and gantry style units. There are detailed descriptions for each of the CMM designs and the major components, as well as the Renishaw scanning and touch probe solutions. Specification charts for the working envelopes are also provided.

There is a separate section in the brochure that outlines COORD3's after-sales services that include; calibration, retrofits and software upgrades, CMM maintenance, digitizing and reverse-engineering, and CMM moving and relocation.

Coord3 Industries, based in Torino Italy, is an ISO 9001:2000 certified CMM manufacturer with subsidiary operations in the USA, China and India.
