

## **Mid- to Low-Volume, High-Mix Electronic Manufacturing Services**

MDT Staff

Computrol, Inc., a world-class provider of mid- to low-volume, high-mix electronic manufacturing services to OEMs, announces that it will exhibit in Booth 2471 at the upcoming Medical Design & Manufacturing (MD&M) West Exposition, scheduled to take place February 12-14, 2013 at the Anaheim Convention Center in Anaheim, California.

Computrol understands the specialized needs of medical device manufacturers from quality to traceability and record retention. Computrol's world-class team has the experience, equipment and processes in place to make any medical device outsource project a success.

Computrol maintains an environment of continuous improvement in every element of business and empowers employees to achieve their best in individual performance and teamwork. The company also is certified in ISO 9001-2008 and ISO 13485, IPC class II and III and J-Std certified as well as being ITAR registered and lead-free RoHS compliant.

The company's electronics contract manufacturing expertise allows customers to realize significant improvements in cycle time, asset utilization, reliability, flexibility, and responsiveness. These objectives are achieved through integration of modern systems and processes, highly skilled and experienced people, fact-based process management, and continuous improvement.
