

## New Lasers Featured at LME

MDT Staff

TRUMPF will display the latest advancements and its full portfolio

of laser technology at the

LIA's Lasers for Manufacturing Event (LME). The event will take place at the Renaissance Schaumburg Convention Center Hotel in Schaumburg, Illinois, September 11 - 12, 2013.

TRUMPF booth 3006 will highlight two new lasers, now available to North American customers: the TruDiode 6006 and the highly anticipated TruDisk 6C. Both of these robust and flexible fiber-delivered solid-state lasers offer higher efficiency in powers up to 6 kW in an even more compact machine footprint.
