

Scientific Innovation in the Age of Experience

MDT Staff

Dassault Systèmes announced the introduction of its newest brand, BIOVIA. The new brand is a combination of Dassault Systèmes' own activities in BioIntelligence, its collaborative 3DEXPERIENCE technologies, and the leading life sciences and material sciences applications from the recent acquisition of Accelrys. The newly acquired company's solutions focus on biological, chemical and materials modeling and simulation, research and open collaborative discovery, enterprise laboratory and quality management, and process manufacturing intelligence. The announcement was made at Accelrys' Accelerate 2014 user conference in Washington, D.C.

Dassault Systèmes' BIOVIA is now the largest and deepest portfolio for the biological, chemical and material modeling, simulation and production domains. BIOVIA's list of 2,000+ customers includes numerous Fortune 500 companies, such as Sanofi, Pfizer, GSK, AstraZeneca, Du Pont, Shell, BASF, P&G, Unilever and L'Oréal.
