

Clean Room Assembly & Packaging

[Crescent Industries, Inc.](#) [1]

We work closely with our customers to fulfill their clean room assembly and packaging requirements by offering design services and custom fixture building to aid in the assembly process. We perform simple to complex operations depending on our customers' requirements examples of assembly procedures include ultra sonic welding, UV bonding, adhesive bonding and heat staking. Our packaging experience is in a wide variety of products and kits for the medical, pharmaceutical and dental markets. Our packaging procedures include vacuum heat sealing, Tyvek lid sealing header and polybag sealing, vacuum formed tray packaging, security and tamper evident seals and other customer specific requirements.
