

## Clean Room Injection Molding

[Crescent Industries, Inc.](#) [1]

Our medical molding division, Crescent Medical Plastics, operates under ISO 13485:2003 certified procedures in an ISO 8 clean room injection molding facility. Our clean room houses various injection molding presses including a vertical/vertical and a new 90 Ton electric injection molding machine. We produce Class I, II & III medical devices such as medical device housings, surgical instruments, implantables, emergency room products, fluid delivery devices, fluid delivery containers, cardiac products, blood delivery housings, optical grade lenses and dental products.
