

# Rush Wheel Truing and Dressing Machines

[Rush Machinery](#) [1]

The Rush Wheel Truing and Dressing Machines are designed for the truing and dressing of flats, angles and radii on diamond and CBN single wheels and multiple wheel packs. They are simple to operate, highly accurate, and cost effective. The customized, easy to use, ExVision video software makes high-tolerance truing and dressing easier than ever before. Contact Rush Machinery today for more information.
