

# Materials Information in Medical Device Design

Submitted by Guest (not verified) on Fri, 05/07/2010 - 12:51pm Granta Design Ltd.

Materials information impacts many aspects medical device design and manufacturing. Best practice in accessing, managing, and using such information saves money, cuts time-to-market, and avoids risk. This paper examines the need for such best practice, the requirements that it imposes, how these requirements are met, and the likely returns.
